

We Will Remember Them

Verse 1

We'll honour the men and women who helped in the war
Some of the greatest people that our country ever saw
Their courage and their bravery oh we will not forget
We will always be forever truly in their debt

Chorus

We will remember them
How they fought for us, never giving in
We will remember them
Fighting battles they would not always win
They were the saviours of our land, with pride then let us stand
And say, we will remember them

Verse 2

The poppies swaying in the fields their colours bold and red
They stand to remind us of all the blood that was shed
By those amazing ANZAC troops whose valour did not lack
As they sailed to Gallipoli, some never coming back

Chorus

Verse 3

They were not selfish they were generous and kind
More worthy heroes it would be so hard to find
No words can fully express all that we would need to say
So we always will remember them on ANZAC day

Chorus

Chorus (new key) with whole school singing

And say, we will remember them
