

Everything Starts With a Thought

This may be a different situation
You have found yourself in
A brand new opportunity
For more adventures to begin
Nothing ever stays the same
Take a chance, challenge yourself, see what you have to gain

Chorus

Everything starts with a thought in your head
You control your own ideas
You're in charge of your hopes, you're in charge of your fears
When you step into an unknown place, show a brave face
As you've been taught
Because everything starts with a thought

Always stay strong no matter what
See all your decisions through
Stand your ground, choose your battles
And do what you have to do
Ask for help when you're in need
It's OK, it shows that you know how to succeed

Chorus

Bridge

Be a shining star!
People will look up to who you are
If you stick it out through all things
And never underestimate
For people do appreciate
The special qualities you bring

Chorus x 2
