

## Butterfly, Butterfly

Butterfly, Butterfly  
How you change from an egg  
Caterpillar, chrysalis  
Then to adult instead

### Chorus

Flying around with your gossamer wings in the sky  
Showing your beautiful colours to us as you gently flutter by

Butterfly, Butterfly  
Feed on nectar so sweet  
Using your taste receptors  
That are part of your feet

### Chorus

Butterfly, Butterfly  
Love to bask in the sun  
And check out different flowers  
Till you find the right one

### Chorus

Butterfly, Butterfly  
There's so many of you  
Monarch, Pea Blue, Western Jewel  
To name but a few

### Chorus x 2
