

EMH (Emergency Medical Hologram)

I don't do charm, my program's not designed for that
But come to visit me in Sick Bay and I'll try to have a chat
I'm getting used to being here all the time
Instead of being hidden away, and
As well as practicing my medical skills
I'm trying to think of things to say, but

Chorus

What you see is what you get
(I've not reached my potential yet)
And what you get is what you see
(There's really no one quite like me)
I'm learning but my whole world is turning upside down, inside out, and all over the place
An EMH well that is what I am, a complex hologram
Trying to fit into this space

I've tried to grow, to get more social, and to try and make some friends
It seems though that my lack of understanding humour never ends
My bedside manner is often criticised
In line with my acerbic wit, so
I keep on trying to get better at things
To see if one day I'm a hit, for

What you see is what you get
(I've not reached my potential yet)
And what you get is what you see
(There's really no one quite like me)
I'm learning but my whole world is turning upside down, inside out, and all over the place
An EMH well that is what I am... a complex hologram... but remember

What you see is what you get
(I've not reached my potential yet)
And what you get is what you see
(There's really no one quite like me)
I'm learning but my whole world is turning upside down, inside out, and all over the place
An EMH well that is what I am, a complex hologram
Trying to fit into this space

EMH (to end)
