

Being Black and White

I'm a common bird, I'm found everywhere
I like to be out in the open air
I don't camouflage or hide away
I like to keep things simple that way

Chorus

I like to walk (I like to walk)
I like to strut (I like to strut)
I like to show off my well rounded gut!
Colour's overrated, just think dark and light
Because being a magpie
Is all about being black and white

I'm a sturdy thing with a wedge shaped bill
Wings and legs complete the deal
No rainbow hues or shades have I
The only colour is in my eye!

Chorus

I can sing, oh yeah I can call
I can reach four octaves over all!
When I perform I look the part
Because I always dress so smart!

Chorus

I like to eat close to the ground
Sometimes I can find things by their sound
Patterned or plain depends on my mood
But I do like colour in my food!

Chorus
