

Honeyeater Hop

I'm a New Holland Honeyeater, always on the go
Bustling about, going to and fro
I'm always on the move, I just can't stop
And I love to hang out at the Honeyeater Hop

Chorus

You can rock it and groove it, roll it and move it at the hop (hop, hop, the
honeyeater hop)
You can twist it and shake it, leave it or take it at the hop (hop, hop, the
honeyeater hop)
We're birds of a feather and we stick together at the hop (hop, hop, the
honeyeater hop)
Hop, hop, the honeyeater hop

My colouring is mostly black and white
I'm really quite a dashing sight
With yellow on my tail and wing
I go to the hop to dance and sing

Chorus

I get my energy from flowers
To help me flit around for hours
I like to eat lunch with my friends
Then it's off to the hop where the fun never ends!

Chorus

I like to hang out in the forests and woods
Heaths and gardens are also good
I like to know who's who and all that
And the honeyeater hop is where it's at

Chorus
