

## **We are the Borg**

Ready to assimilate anyone that comes our way  
Will you be the lucky ones  
That we will encounter when we're on our travels today  
We can give you upgrades way beyond your wildest dreams  
Offer you technology, make you a part of our uniquely wonderful team

### **Chorus**

We are the Borg  
A Cybernetic race  
We have our origins in this corner of space  
We seek perfection we'll add you to our collection  
Resistance is futile  
As you'll find out after a while  
For we're the Borg  
We are the Borg

Why rely on one mind, you can tap into our hive  
Sharing thoughts and ideas  
It's a very different way of feeling alive  
Easily adapting, we know what we have to do  
Being part of us will make all these things naturally a part of you

### **Chorus**

### **Bridge**

Lower your shields and surrender  
And let us become one  
Get ready for an adventure  
Our journey has just begun

### **Chorus**

We are the Borg x 2
