

## Confidence

Don't let anybody out there  
Drag you down, cause you to frown when  
Something you do makes you proud and  
Makes you want to sing out loud  
Just remember that you've got it together  
You've got a talent to share

### Chorus

It's all about confidence, find it in you  
In who you are and what you do  
Confidence, just let it grow  
In what you think and what you know  
It's there, so don't keep yourself in suspense  
Show that confidence

Take your place on your own stage now  
Set the scene and live your dream for  
It's your chance to prove to you  
That there is nothing you can't do  
Take a deep breath, as you've got everything set  
Go out and show them all how

### Chorus

#### [Bridge]

When the nerves hit or when you're not sure  
Whether you can walk through each new door  
Do that self-talk thing and listen in, when you say  
"I've got this, it's not too hard for me"  
Don't keep writing the same old story  
Hold your head up high and go and give it a try
