

Believe in yourself

Stop and take a minute
When you're feeling unsure
You will get yourself through this
Like you have done before
Don't let others bring you down
Stay strong, you know you can
Take pride in what you do
Be your number one fan

Chorus

Believe in yourself
Celebrate in you
You are your best friend
And you can see you through
Believe in yourself
Though it's sometimes hard to do
Just do your best
Own each success
Believe in you

Look down deep inside of you
And see what's always there
Find that special talent, and
Don't be afraid to share
Show them out there what you've got
You'll do it if you try
Just spread your wings of confidence
And watch how far you fly

Chorus

Bridge

Tell yourself one good thing every day
Chase any clouds of doubt away
Turn any grey sky into blue
And let the sun shine through

Chorus

Just do your best
Own each success
Believe in you x 2
