

Dragonfly Blues

Let me tell you a story all about me
I'm an insect that you often will see
Flying around thinking what can I do
Cause I've got a case of the dragonfly blues

Chorus

I've got the dragonfly blues (well also yellows and reds
Because dragonflies can be these colours instead)
Got a big long body and transparent wings
But sometimes I wish I was a different thing!

I've got 2 sets of wings with dragonfly power
I can fly up to 36 miles per hour!
I've got six legs but hard as I try
I can't walk very well so I take to the sky

Chorus

I love to fly and can move quite fast
I can change directions and make my flight last
My vision is good, it has to be said
But my eyes they take up most of my head!

Chorus

When I'm a nymph I begin to grow
Slowly getting bits of me that all of you know
Safe in the water and away from the thought
That my adult life span is so very short!

Chorus x 2 and repeat last line of chorus second time
